

TYPICAL VALUES OF VOLTAGES

flashlight battery	1.5 or 4.5 V (DC)
car battery	12 V or 24 V (DC)
household power outlet (Canada and USA)	120 V (AC)
household power outlet (Europe and most other countries)	230 V (AC)
tram network Zurich	600 V (DC)
train system Switzerland	15'000 V (AC)
high voltage for power transmission (Switzerland)	220 kV or 380 kV (AC)
